Intro to Philosophy
Fall 2006 - Cabrillo College
Final Exam
Instructor: Zachary Fruhling

Please answer the following three essay questions. *The more detailed an answer you give, the better your score on each question will be*. Please refer to the readings/material from the class as appropriate. Neatness counts! If I cannot read your answer, it will be as though you had not written it.

1) Distinguish between libertarianism, determinism, and compatibilism. Offer and explain *in detail* at least one specific example of *each* these general views. Be sure to include an account of the potential weaknesses of each of these theories.

2) Give a *detailed* explanation of at least two different justifications for punishment. What are some potential challenges to those justifications?

3) What is the distinction between virtue ethics, deontological ethics, and consequentialist ethics? Give a *detailed* specific example of each type of theory from the material we have covered. Which of these views seems most tenable to you and why? What are the problems you see with the other two views?

Enjoy your holiday break!
